

English

This half term we will be finding out about the Victorian Era, and using the information we find out to create our fact files. We will also be thinking about what it would have been like to live in Victorian times, and writing diary entries as a Victorian Child.

Maths

We will be continuing addition and subtraction with numbers to 20. We will then move on to place value with numbers to 50, consolidating the skills we learnt last half term and using this to work with bigger numbers. We will then explore length and height and how we can measure these.

Science

We will be learning about materials, exploring what different objects are made from as well as the properties of these materials. We will then compare the materials used in Victorian times with the types of materials that we use today.

Victorians

History

We will be immersing ourselves in the topic of Victorians, thinking about what life was like in Victorian times. We will also be learning about Queen Victoria and other famous Victorians. We will be comparing life as a Victorian child to our lives today, for example comparing houses, schools and clothes.

PE/Games

We will be doing Gymnastics this half term, supported by a specialist coach who will be joining us each week. During outdoor PE we will be consolidating the skills learnt last term and applying these to different sports.

Trip

We are hoping to be visiting Milestones Museum at the end of the half term to support our learning about Victorians. Look out for more information to follow.

Art/ DT

This half term, we will be looking at some art from the Victorian Era as well as some artists and try to re-create this in our own art work.

RE

We will be looking at Christianity this half term, and thinking about the key question: "Was it always easy for Jesus to show friendship?"

ICT

We will be continuing to practice the ICT skills we have learnt as well as exploring Athletics.
