

## Geography

This term the children will be learning about the rainforests of the world, particularly the Amazonian rainforest of Brazil. They will consider the climate of the region and learn to explain how this relates to the location of rainforests, which are close to the Equator. They will research about wildlife and the rich plant life of the rainforest regions.

## French

In French, the children will be learning the French words for classroom commands and classroom objects. Children will be learning how to explain what they study at school and which subjects they prefer.

## Art

This term the children will be using watercolour and will be sketching to create art work in the style of Rousseau a famous French painter, who is renowned for his rainforest depictions.

## RE

This term, children will be learning about the miracles of Jesus according to the Christian bible. Children will compare myth, mystery and miracle.

## PSHCE

This term the learning will be about children's dreams and goals. Children will consider their futures and will think about how to be motivated and cope with challenges.

# Lungs of the world

## DT

The children will be designing and making headdresses similar to those worn by indigenous tribespeople.

## Music

The children will be focussing on singing at the correct pitch and sticking to the melody.

## ICT

The children's computing this term will focus on researching and creating presentations related to our topic. The children will be developing our skills using Power Point.

## PE/Games

All children will be participating in invasion games and gymnastics this term. Our outdoor PE will happen on a Friday afternoon, and our indoor PE will happen on a Tuesday.

## Trips

The children will be visiting the Living Rainforest.

## English

This term the children will be learning about persuasive writing and the features required to effectively write a persuasive piece. Children will be learning how to write a story, influenced by stories from another culture. They will be focussing on grammar and how children can enrich their sentences with varied adjectives, adverbs and fronted adverbials. Children will also learn how to write opinion based, persuasive arguments, as they debate on how to protect the rainforest from further destruction.

## Maths

The children will be learning how to add, subtract and reason with money. Children will also be presenting data on pictograms, bar charts and tables. Children will be measuring lengths and calculating the perimeter of 2 d shapes.

## Science

This term, children will be learning about forces and magnets. Children will be focussing on the magnetic poles, magnetic strength and forces that occur in everyday life.
