

English

This half term we will be starting our new topic by thinking about what we need to travel around the world and learning how to write lists. Once we arrive at the different countries we will be learning how to write postcards and letters to describe what the different countries are like to our families and friends.

Maths

Now we know how to count in 2's, 5's and 10's, we will be learning more about multiplication and how to make arrays. We will also be looking at equal groups and also finding doubles. We will then explore fractions and learn how to find a half and a quarter. Finally, we will look at position and direction and learn how to describe these using mathematical language.

Science

This half term we will be learning about plants. We will plant some of our own seeds and learn all about how they grow and how to look after them. We will then look more closely about the different parts of plant.

**Around the world in 80 days.**

History

In History we will be looking closely at famous explorers who travelled the world and learning about their experiences and the discoveries they made.

PE/Games

This half term we will be doing dance in indoor PE. We will be using our topic to explore dance in different parts of the world. During outdoor PE we will be doing athletics.

Music

We will be following Charanga lessons. We will be learning how to use instruments to keep in time with music.

Geography

In Geography we will be learning the names of and exploring the seven different continents. We will also be looking more closely at the UK and learning about the different countries and cities that make up the UK.

RE

In RE this term we will be learning about Judaism and answering the question "Is Shabbat important to Jewish children?"

ICT

We will be learning how to safely research information on the computer and how to use this.
