

I am moving to...

Year 4

Woodpecker Class

# My new teacher

This is my new teacher.

Her name is Miss Hussain

Her class is called Woodpeckers.

I really enjoy playing table tennis with my family, it is a new skill I have learnt in lockdown! I love watching movies, one of my favourite films is Tangled. Music is very important to me; I love to dance and sing to songs.

# Teaching Assistants

There is one teaching assistant in my new class.

Her name is Miss Stock who will work in the morning.

She is there to help all the children, including me, with your learning.

# My new classroom

This is my new classroom - Room 9

# What happens in the morning?

I will come into school through the double doors. If I have a lunchbox, I will put it on the trolley first.

This is my new cloakroom. I will put my coat and PE bag on my peg.

I will put my book bag and water bottle away in my classroom.

# What happens during the day?

I will usually use the toilets near my classroom

At the end of the day, my teacher will say goodbye to me at the classroom door where I will be met by an adult.

# Moving Up

Most children move to a new class each year.

This is a good thing because it means that children can learn new things.

Some children feel nervous when they move to a new class because they are not sure what it will be like.

A few things will be a little bit different, but most things will be just the same as before.

My new teacher and teaching assistant know that some children feel nervous. They will try their best to make everyone relax and feel happy in their new class.

My new teacher and teaching assistant will not mind if I ask for help because I am worried or don't know what to do.

I will talk about my worries about moving class if I need to.

I will try to think of positives and how I have already coped well with changes.
