

Over the last week at Beechwood.....

Butterflies have been busy writing letters to Santa. The children have impressed the staff with their application of phonics.

Year 1 have been busy doing their Golden Book writing about Stick Man. They have been trying really hard to remember exciting adjectives, capital letters, full stops and finger spaces. In maths they have been busy finishing their subtraction unit. The children are all getting really confident with adding and taking away.

Year 2 have been finishing off units and completing assessments. The staff are very pleased with how the children have performed in their Phonics Screening. Well done, all of you! In between the children have been practising their Christmas dance and decorating the classroom. In RE they looked at Christmas symbols and finished off their Science unit on materials by making a recycling poster.

Year 3 have been working hard this week showing how well they can answer questions with their reading, writing and maths skills! They have surprised the staff with their fantastic focus and willingness to succeed. The children have enjoyed preparing their parts for the upcoming Nativity and are eagerly counting down the days until Christmas!

Year 4 have been focusing their learning on letter writing. This year they decided that they would write to Santa with a twist. Please ask your children to explain. In math's the children have continued to consolidate their learning of how to solve the perimeter of shapes. In science they have developed their own classification keys grouping animals by their characteristics.

Years 5 have been writing Christmas poems and looking at multiplication. We have continued with our Christmas one point perspective drawings.

Year 6 are thrilled to be back at school! They have been working very hard on their assessments this week, as well as creating some beautiful Christmas/ winter artwork.

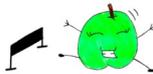

House Competition :

Well done to all of our Brilliant Banana's for collecting the most tokens this week!

at Home

7th December 2020

What's going on this week?

Two notebooks thought to be worth millions of pounds, belonging to the scientist Charles Darwin, have been reported stolen from Cambridge University Library 20 years after they were last seen. One of them contains Darwin's famous 1837 Tree of Life sketch in which he explored the historical evolution of species.

Things to talk about at home...

- 🍏 What is your earliest memory?
- 🍏 Discuss your favourite and least favourite memories.
- 🍏 Ask someone you live with about their memories.
- 🍏 Do you think it is important for us to have memories? Do you think they help us? If so, how?

Please note any interesting thoughts or comments here...

Share your thoughts and read the opinions of others on our discussion board: www.picture-news.co.uk/discuss

Since I have been
 for the great trouble
 you have taken. You
 have not only saved
 me much trouble &
 considerable expense, but
 you have spared me
 in a better manner
 than I could have
 done myself.
 I shall be very happy
 to help with an abstract
 of your several views on
 the origin of species, &
 it will make a volume
 of about 500 pages. I
 shall be very pleased
 to send you a copy
 when it is published.
 I shall give abstract of
 conclusion at which I
 have arrived in Bes
 cells. - Between
 with my thanks
 for your
 (Darwin)

7th-13th December

How can we keep our memories alive?
