## Remote Learning Provision

### Dear Parents/Carers

Thankyou for joining the live check-ins – these are going really well across the school and engagement is high. It is lovely to see the children on a daily basis and for them to see their classmates and have the opportunity to ask questions. If, for any reason, there is an issue with joining please do not worry, just contact the class teacher via Google Classroom. We do understand the pressures that parents are under and know that sometimes children may not be able to attend.

Below you will see we have set out the proposed remote learning provision moving forward at Beechwood Primary School. We have had many discussions regarding this and in our decision making have had to balance the need as requested from some parents for more input from the teacher and for others the lack of devices available in the home. Bearing that in mind we hope that we have found the right balance for our children here at Beechwood.

We will continue to upload daily work on Google Classrooms as we are doing now for all children so that anyone needing to continue in the same way can do so.

In addition, we are adding to our provision in every year group although this will look different across the school. What is appropriate for Early Years is not necessarily appropriate for Year 6. The provision is listed below and we will be rolling this out from Monday 18<sup>th</sup> January onwards. There may be some teething problems but we hope that the added provision supports our children and, of course, our parents.

We understand that there will be pressure on devices at home for some parents so by providing pre-recorded sessions these can be accessed at any time and will remain on Google Classrooms for you to use.

As always, if you are finding the amount of work overwhelming please concentrate on the core subjects of Reading, Writing and Maths. Please use Google Classrooms to contact staff if this is the case so that they are aware. We will continue to provide feedback on work uploaded to Google Classrooms and answer any queries that come our way.
